

Justification:

I answered 5 of the 20pt questions.

- Why is this week's topic important for teamwork?
- How do plan on contributing to the team, besides completing your tasks?
- Tell me about what you taught someone? And what did they learn, that they didn't know before?
- If you were to write your experience as STAR story, how would you phrase it?
- If this was a religion class, how would you relate this week's topic to the gospel?

This week's topic is important to teamwork because every team needs a leader and even if you are not the project manager, you can still be a leader. I plan on contributing to my team by helping with building our aircannon acorn project this week, which is the last acorn project we have left. Today in class I taught my boss about computers and databases. If I were to write my experience as a STAR story, I would say that the situation was that I was at work and we had techs from the internet company come and my boss asked what they were fixing. My task was to tell my boss what they were fixing and how it works. My action was to explain how databases work and the internet works. The result was that my boss knows more about the internet and databases. If this was a religion class, this week's topic would relate because we need to be leaders in our wards, not just meaning in leadership positions but in everything we do in church.
