This week's topic was influence and it is important for teamwork because we can all influence each other and ourselves in a positive or negative way. It is important to understand how we influence others so that we can do better as a team and succeed in the workplace. I plan on contributing to the team by having a positive influence on others in my group. I have had lots of experiences with being influenced and influencing others. My experience in class was more positive than a lot of other situations of influence that I have had previously. I learned in class that we are either influencing or being influenced, and as I realized that it changed my opinion on influencing others. I believe that almost everyone has been influenced or has influenced someone else in their lives and from what I talked about with my classmates, they have had similar experiences to mine and that their experiences in class were similar after understanding that we are either influencing or being influenced. I taught my Girlfriend about what we learned in class about influencing and about the little survey we did and she learned to be more conscious of her influence on others and how to be a positive influence on others. If I were to write that experience as a STAR story, I would say that the situation was that my girlfriend asked me what I learned about in class today. My task was to give her a response. My Action was to teach her about influence and later show her some of the slides from our class. The result was that she learned more about influence. If this

class was a religion class, I would relate influence to being kind to each other and by helping others on the covenant path. As we have a positive influence on others, we can help them grow as people and we become more like Christ.

100/100 points.

I answered all of the 20pt questions.
