This week's topic was important for teamwork because the topic was teamwork. Teamwork is one of the most important things in any job or really anything in life because we can accomplish so much more as a team than we could by ourselves.

I plan on contributing to the team by giving good input and helping find creative solutions to the problems we face as a team. I will be a very good time player and will help lift others in my team.

My experience relates to others that I've had because I worked on a team of electricians and we had to have a lot of teamwork and good communication to finish our jobs on time and to get everything done right.

I am sure that my other classmates have similar experiences but as of now, we have not had the chance to really discuss our experiences very much. But we did get to talk about what we think are the most important things about teamwork and we all seemed like we had similar experiences with teamwork as I have.

Recently I was over at a friend's house doing homework, when they asked me if I knew how to update a computer. Their computer had not been updated for over a year and they did not know how to find the settings on their computer. I taught them how to find their settings and how to update their computer

If i were to write that experience as a STAR I would say: My friend needed to update their computer. They asked me to help them with it. I found their settings and showed them how to get to the updates and started the update for them. They can now find their settings and install updates on their computer.

If this was a religion class, This weeks topic would relate because We are all on the same team and should work together as a church to help one another like Jesus taught us. Our bishops are our team captains and they help direct our ward team.
