This week's topic was professionalism and it is important for teamwork because we should always act in a professional manner with those in our teams. This relates to other experiences i've had because i have had bosses and coworkers treat me and others in an unprofessional manner and it has a negative effect on their relation with the other person. I taught my roommate about what we learned in the reading about professionalism, he learned more about things that we need to do to be professional in every setting in the workplace. If my experience was a STAR story than i would say: I worked for a boss that did not treat me professionally, my task was to perform my job with professionalism, my action was to ignore the unprofessionalism, the result was that i worked there and did my job well and got offered a better job somewhere else. If this was a religion class, this week's topic would relate because it is important to treat others as Christ would. Even when he was mocked and cursed at, Christ would show his love for everyone.
