

Justification:

I answered 5 of the 20pt questions.

- Why is this week's topic important for teamwork?
- How do plan on contributing to the team, besides completing your tasks?
- Tell me about what you taught someone? And what did they learn, that they didn't know before?
- If you were to write your experience as STAR story, how would you phrase it?
- If this was a religion class, how would you relate this week's topic to the gospel?

This week's topic is important to teamwork because conflict happens in every team. I plan on contributing to my team by helping come up with new ideas for our Acorn Projects. Today in class I taught a group member about lists in python and how lists work in python. If I were to write my experience as a STAR story, I would say that the situation was that I am in a team in a class focused on python and a group member was struggling to understand a concept. My task was to help my teammate understand why their code was not working. My action was to explain that you need to use a list in order to finish the assignment. The result was that my teammate finished his assignment. If this was a religion class, this week's topic would relate because we will have conflict in our marriages and relationships, but we can resolve the conflicts with the help of the Lord.
