

Justification:

I answered 5 of the 20pt questions.

- Why is this week's topic important for teamwork?
- How do plan on contributing to the team, besides completing your tasks?
- Tell me about what you taught someone? And what did they learn, that they didn't know before?
- If you were to write your experience as STAR story, how would you phrase it?
- If this was a religion class, how would you relate this week's topic to the gospel?

This week we didn't really have a topic as we did not have class. I plan on contributing to my team by helping with our acorn project presentation report and continuing to be a good team member through the rest of my life. Today I taught my boss about electrical breakers. If I were to write my experience as a STAR story, I would say that the situation was that I was at work and my boss asked if I could look at an electrical problem. My task was to fix the electrical problem and teach my boss about what was wrong. My action was to explain how the main breaker from the grid was bad and explained how to tell if it is bad. The result was that my boss understands a little more about breakers. If this was a religion class, this class was a religion class, It would relate because we are all on the same team with the same goals and should try to help each other physically and spiritually.
