Justification:
I answered 5 of the 20pt questions.

- ○ Why is this week's topic important for teamwork?
- ○ How do plan on contributing to the team, besides completing your tasks?
- ○ Tell me about what you taught someone? And what did they learn, that they didn't know before?
- ○ If you were to write your experience as STAR story, how would you phrase it?
- ○ If this was a religion class, how would you relate this week's topic to the gospel?

This week's topic is important to teamwork because a healthy competition amongst team members can really help a team if done right. I plan on contributing to my team by helping fix the things we need for our ACORN projects. Today in class I taught a group member about dictionaries in python and how they work in programming. If I were to write my experience as a STAR story, I would say that the situation was that I am in a team in a class focused on python and a group member was struggling to understand a concept. My task was to help my teammate understand the best way to sort through multiple lists. My action was to explain that you need to use a dictionary in order to finish the assignment. The result was that my teammate finished his assignment. If this was a religion class, this week's topic would relate because we are all on the same team and should help each other and not just look to get ahead of others in life.
